

LIFE FROM INSIDE

BRACCO IMAGING Ceriano Laghetto

QUALITY POLICY

Bracco Imaging is globally committed to providing its Patients and Customers with reliable, safe and effective products, aimed at improving the diagnostic approach and patient safety, guaranteeing the systematic implementation of the highest quality standards, respecting the environment and ensuring the health and safety of all the employees.

The organization has the appropriate level of commitment from the Corporate Bracco Imaging S.p.A and authority to act by promoting the culture of quality, environment, and safety extensively.

The quality management system is designed to meet compliance, customer and stakeholder requirement, to support and measure critical processes through the use of performance indicators.

Each Bracco Imaging employee contribute to Quality and is responsible for his/her own objectives and measurements, which are constantly monitored and shared.

Considering the needs and expectations of workers and other stakeholders with reference to the context in which the organization operates, also through the initiatives envisaged by the designated Group Functions, Bracco Imaging aims to achieve the following objectives:

- *Ensuring the product supply required by the constantly growing market*
- *Promote the continuous improvement of processes and facilities in technology in terms of sustainability, environmental impact and safety at work with a view to quality*
- *Focus on employees through welfare-related initiatives*
- *Exploit the evident synergies of Management Systems (Quality, Environment, OSH and RIR)*

The quality policy is reviewed during the management review, is communicated and integrated internally at every level of the organization.

The Plant Manager

Dr. D. Aiolfi

A handwritten signature in blue ink, appearing to read "Dr. D. Aiolfi", is written over the printed name.
