

Liquid E-Z-PAQUE® (barium sulfate) oral suspension

Indications and Usage:

Liquid E-Z-PAQUE® (barium sulfate) oral suspension is indicated for use in single contrast radiographic examinations of the esophagus, stomach, and small bowel to visualize the gastrointestinal (GI) tract in adult and pediatric patients.

IMPORTANT SAFETY INFORMATION:

For Oral Administration. This product should not be used in patients with known or suspected perforation of the GI tract, known obstruction of the GI tract, high risk of aspiration, or hypersensitivity to barium sulfate products. Rarely, severe allergic reactions of anaphylactoid nature have been reported following administration of barium sulfate contrast agents.

Please consult full Prescribing Information for Liquid E-Z-PAQUE (barium sulfate) oral suspension [here](#).

You are encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch or call 1-800-FDA-1088.
