

OPEN FORUM SESSION

You are invited!

ECR 2025

Vienna, Austria

Friday February 28th

10.15-11.00

Open Forum Area,
Foyer E, ACV Level 0

Photon counting CT and high iodine concentration: a clinical case review

Moderator: Pietro Spagnolo (Milan, Italy)

Faculty

Pietro Spagnolo
RCCS Policlinico San Donato; Milan, Italy

Emese Zsarnoczay
Medical Imaging Centre, Semmelweis University, Budapest,
Hungary

Lucian Beer
Medical University of Vienna, Vienna, Austria

General description

This open forum session aims to show how photon counting CT in conjunction with contrast media containing high iodine concentration is appropriate for cardiovascular and non-cardiac imaging applications.

Assessing the value of PCCT and high iodine concentration for:

- Cardiac applications.

Emese Zsarnóczay (Budapest, Hungary)

- Non-cardiac applications.

Lucian Beer (Vienna, Austria)
